Ordering & Delivery	116

British Thornton have been designing and making quality furniture in the UK since 1967.

We focus on quality, design and functionality. Our dedicated and experienced team continually work on new and innovative designs and layouts to keep ahead of changes in the curriculum, as well as advances in learning and teaching styles.

When you choose British Thornton for your school, you can be assured you are buying quality furniture that has been designed and manufactured to meet all the requirements of a modern learning environment.

We also put a strong emphasis on customer service, providing the personal touch, talking to our customers, and more importantly listening.

Let British Thornton help you create a fresh, inspiring learning environment.

UK Made Products

Equipped with cutting-edge machinery, our manufacturing plant in Keighley, West Yorkshire uses ethically sourced raw materials to produce our stylish and contemporary ranges of fixed and loose furniture.

Quality

With exception of our very largest items, our loose furniture products are fully assembled in our factory, ensuring quality and robustness.

It also means that on delivery everything is ready to use, for your convenience.

Each item is quality checked on dispatch from our warehouse, wrapped in reusable blankets for protection during transportation, and loaded onto our own delivery vehicles. It is our aim for every piece of furniture to reach our customers in perfect condition.

British Thornton have successfully been awarded a framework agreement on a shared basis for the Scotland Excel Contract: Supply deliver and installation of Education and Office Furniture.

Educational Projects

We offer a complete service for educational projects from planning and design through to installation. Find out more about our service from page 102-111

Loose Furniture

This catalogue features our loose furniture ranges, suitable to furnish all areas of a school. We can also assist with product selection and space planning.

Trudy Nursery

Trudy Nursery is a beautiful range of furniture and equipment designed specifically for children ages 0-5. Find out more on pages 98-101.

Trudy Primary

Trudy Primary is a colourful range designed specifically for primary schools. Find out more on pages 46-53.

Laboratories

British Thornton also design, manufacture and install industrial laboratory furniture.

Contact us for more information.
01535 683 250
sales@british-thornton.co.uk

Need help with choosing your furniture?

Our sales team are here to help. We can arrange colour swatches, assist with product selection and provide free, no obligation quotations.

If you have a larger project, we are happy to visit you and discuss your requirements in person. Tell us your aspirations, and what you need the room to do, and we will work with you to come up with a design which works for you, within your budget.

Our experienced team can measure your space, offer advice on products and provide an appropriate plan of your new design along with a detailed quotation.

School Furniture Service Scheme

As part of our ongoing commitment to minimising our impact on the environment, whilst ensuring our quality products remain excellent value for our customers, British Thornton have introduced a furniture service scheme.

For an annual fee, calculated on pupil numbers, we offer a full furniture service.

For more information, please contact our customer service team on 01535 683 250.

What’s included	Benefits of the service
- Annual audit of all fixed and loose furniture by our qualified furniture technicians. - Screws, castors, handles and hinges tightened or replaced.	- Full list of all furniture you have in your school. - Extend the life of your furniture and avoid risk of accidents .
Carry out or co-ordinate any warranty repairs or replacements.	Avoid warranty issues being missed and falling out of warranty period.
Option to replace parts for minor damages, rather than a whole unit e.g replacement table tops or cupboard doors.	Extend life of product, reduce waste, avoid replacement costs.
Discount off all new purchases.	Reduce costs.

Table /chair sizes may vary slightly from the sizes shown, the standard allows heights to be within a 10mm tolerance

Size marks ensure that the table to seat height ratio provides the highest levels of comfort and support for the child - encouraging good posture. The size marks featured in the diagram below are based on the new standard for furniture in all UK and European schools (BS EN 1729). These new standards include;

BS EN 1729 Part 1
Functional dimensions

BS EN 1729 Part 2
Safety requirements and test methods

We ensure that all of our classroom chairs conform to the new standard and that all our classroom tables correspond to the correct heights. Look out for the symbol throughout the catalogue that indicates products that have been tested and approved to the new BS EN 1729 standard.

Please note that the standard allows for the table and chair dimensions to be within 10mm of the size mark.

BS EN 1729 quick guide

size	chair	table
1	260mm	460mm (Height)
2	310mm	530mm (Height)
3	350mm	590mm (Height)
4	380mm	640mm (Height)
5	430mm	710mm (Height)
6	460mm	760mm (Height)

Stool height guide

Incompatibility chart

Some chairs are slightly wider than the gap between the legs of some of our tables. When ordering chairs to go with tables, please check this chart which shows incompatible combinations.

If you have any queries, please call us on 01535 683 250

Table Options | Tables

British Thornton has worked in the education market for 50 years and we have used that experience to create a range of classroom tables that are high quality, and come in a range of sizes, top colours and edge types that fit the requirements of the busiest classrooms. All our tables have 18mm thick top with hard wearing laminate tops and a balancer sheet below, to prevent any moisture ingress and keep tops flat.

We have 3 ranges of standard classroom tables, this guide should help you choose which range is right for your classroom.

760(H)mm	Size 6	4386	£79

Wedge Table (Items A-B)

Wedge tables are a single user table that can be clustered together in many different ways, making them great for the modern school environment where flexibility of space is essential.

Wedge tables can be rotationally stacked five tables high and are available with an optional wheel on the back leg to aid the tables mobility.

Hard-wearing laminate tops are bonded to an MDF core and feature an extremely durable grey PU edge. Available in a choice of finishes;

Beech/Maple/Cool Blue/Purple/
Yellow/Lime/Grey

Black, Light Grey

Tessellate Table

The tessellate table is a single user table, available in either static or mobile versions and in size marks 3-6. The table has been designed around a single tessellating footprint, allowing for multiple configurations. Due to this unique shape, the table is also perfectly suited to both right hand and left hand users, depending on which edge the users sit at; and despite its minimal footprint, the table provides three separate working positions that can be used practically. Unlike many other flexible tables, the tessellate table works perfectly in linear configurations as well as more complex formations allowing you to configure your teaching space as you require it. The mobile version of the table features two striking, locking castors for ease of movement and both tables, static and mobile, rotationally stack four high.

Tested to BS EN-1729.

A. Tessellate Static Table

2400(W) x 1200(D)mm [P240120B](#) £363.50

Project table (Item B)

These functional and extremely strong tables are suitable for a variety of work.

Project tables are supplied flat packed, for easy self assembly. No special tools are required, bolt on legs only. Grey worktop as standard.

Frame (Item B)

Light Grey/Black

Lancashire bench

This dual-purpose, heavy duty workbench is suitable for woodwork and metalwork. Designed and manufactured to stand up to the rigours of a busy and demanding environment.

Options allow for the basic bench to be extended into a work centre. The worktops are available as either medium density fibreboard (MDF) or solid beech, both of which can be changed as necessary, through continual use.

Height adjustable workbench also available, see page xx.

Features

- 1 Tool storage well**
A tool storage well with removable practical cover
 - 2 Vices**
Benches come complete with either 3 or 4 woodworking vices. Metalwork vices can be added as an option see item F.
 - 3 Fully welded frame**
Fully welded steel frame and steel rails ensure strength and durability. Levelling feet for stability.
 - 4 Wheelchair access welded frame**
Rails are set back, to allow for wheelchair access
 - 5 MDF worktop**
 - 6 Solid beech worktop**
- Frame (Items A-C)
- Dark Grey/Light Grey/Black

Flip top tables (Items A-C)

The flip top tables are perfect for flexible meeting or group rooms.

Available in a variety of top shapes, the tables can be grouped together to form larger configurations to suit your required layout. Tops are finished in a choice of laminates all with matching ABS edges. The simple tilting mechanism allows the top to fold and tables to nest together for space saving storage.

The stylish frame combines matt black and polished aluminium and has a locking castor foot.

Everyday 25 dining

Everyday 25 dining is a simple cost effective solution for breakout and dining spaces. Table/seat combinations are offered in two heights, 1050mm for breakfast style dining and 760mm for table style dining. Each height is also available as 1.8m for six persons or 2.4m for eight persons.

With finishes for outer and inner panels specified independently the range of colour combinations is extensive and allows benches to be specified that will suit a broad range of interior styles.

Outer panels are 25mm laminated chipboard with inner panels in 18mm MFMDf or Laminated 18mm MDF, the foot rests on the high benches are epoxy powder coated steel tube.

Tilt table (Items A-C)

The tilt tables on this page offer a practical and stylish solution for creating temporary dining spaces in multi-functional halls and open spaces. These modern tables are available with 3 top shapes and in three height options to cover primary and secondary use.

The benefit of this product is that the table is sturdy when in use. This is because the castors are lifted off the floor and only activated once the table is tilted ready for transportation. The frame is manufactured from a modern, oval tube, and features a high-quality folding mechanism, robust inset castors and a convenient handle.

Frames are supplied silver only.

- 5 year warranty

Worktop finishes (Items A-C)

Beech/Maple/Grey Dot/Yellow/Lime/Cool Blue/Purple

Folding top tables (Items D)

These tables are easily transported and can be locked into position, using braked castors. Its flexibility makes the folding top table ideal for open learning spaces, group work and informal dining or breakout areas.

To ensure maximum floor space utilisation, the tables feature a high quality, tilting mechanism. This vertical tabletop positioning allows the tables to be nested together when not in use.

- Braked, locking castors
- BS EN 527 approved
- Suitable for light to medium use only
- 5 year warranty

Frames are supplied silver only.

Style & quality... In complete harmony.

Both popular and contemporary, the Harmony range of chairs and stools are solid and robust, and the ergonomic design gives the user a comfortable seating position.

Commended by the independent testing house FIRA, the chair is available in 6 sizes and a range of colours and comes as a chair or stool.

So, wherever you need seating, there is always a chair or stool that works in harmony with your classroom layout.

TRUDY PRIMARY

Trudy primary is a range of practical furniture designed with feedback from teachers on how they used furniture, and what they needed to help them in the classroom. They wanted something more modern, bright and flexible...So the trudy designers started sketching up ideas and the rest is history.

The British Thornton design team sat in classrooms and watched how teachers and children used their existing furniture. They spoke to teachers about what they needed and found there was a lack of storage options to suit the huge variety of equipment in a classroom.

Unlike secondary schools, where pupils move from room to room for different subjects, primary school children stay in the same room for most of the day.

The teachers stressed their need to be able to rearrange the room to suit the subject, whether it was working individually, in groups, or clearing everything away to make space for drama.

So, back in the office, the designers set to work putting together their ideas for the new furniture range and thinking about all the things they'd learned back at school.

The designers chose to use maple. It's a much lighter colour and gives a much fresher look to the classroom. It also complements the bright modern colours they chose for trays, chairs, handles and trimming the storage units.

We launched the first trudy products at the Education Show in Birmingham in 2008 and we were delighted with how much everyone liked it.

More products were added over the years and even a few more colours. In 2012 a range of early years and play furniture was introduced, followed by a brand new range of nursery furniture in 2017.

HOW TRUDY PRIMARY WORKS

SPACE

We know space can be tight in classrooms, that's why the trudy primary range cleverly makes use of every available surface as a storage space.

FLEXIBILITY

The key to a modern primary school. Storage units are designed to be easily moved around the classroom, by teachers or pupils, then locked into position wherever needed.

SHAPE

With soft curved lines and our unique, half-moon handle, trudy primary furniture has no dangerous sharp corners, and our curved seating and tables link neatly together.

COLOUR

Choose from exciting modern colours to inspire young minds or a neutral grey suitable for SEN, or to allow pupil displays to stand out.

QUALITY

Every trudy primary product is made with high quality materials and fittings.

INTERACTION

Children learn by interacting with the furniture, and their environment, knowing where things are stored, preparing the room and tidying away after use.

INSPIRATION

Creating teaching environments that inspire children to learn.

TRUDY CREATIVE

PLAY KITCHEN SET

The kitchen set will sit perfectly in any classroom and will provide hours of interactive learning fun.

PRM109 Maple £570.00

Trudy play kitchen units don't just look great, they've got moving parts just like the real thing!

There's a cooker, fridge/freezer, sink unit and washing machine, which are guaranteed to brighten up any classroom. Each unit comes in the colours shown.

Units also sold separately, request our Trudy Primary catalogue to see the full range.

For all the little monsters, super-heroes and princesses in your class, these dress-up units have an acrylic mirror for safety and plenty of space for storage.

They also have child-friendly plastic hooks for hanging clothing and lockable castors for flexibility.

MOBILE DOUBLE SIDED DRESS-UP UNIT

1032w x 600d x 1200h

This comes with 3 deep co-ordinating trays, 3 clear cubby trays and 14 hooks. It has lockable castors too.

Maple panels, 1 mirrored end
PRM104M-** £321.00

Maple panels, 1 mirrored end, 1 coloured end
PRM104C-** £337.00

DRESS-UP TROLLEY

1200w x 600d x 1200h

This mobile dress-up unit has space for 3 co-ordinating trays, 24 hooks, and has lockable castors too.

PRM51-** Maple £482.00

These units are brilliant for storing artwork and supplies to stop them from cluttering up your worktops.

CUBBY CRAFT TROLLEY

1032w x 600d x 800h

Perfect for storing art supplies, the craft trolley can take 3 deep and 6 cubby trays.

PRM95M-** Maple panels £301.00
PRM95C-** Maple panels coloured ends £329.00

A2 DRYING RACK

694w x 600d x 1000h

With 15 plastic coated shelves, A2 sized artwork can dry completely without cluttering up your worktops.

PRM96M-** Maple panels £502.00
PRM96C-** Maple panels coloured ends £542.00

TRUDY WELCOME

Welcome benches are great for narrow corridors or against the wall in your classroom. The mobile units have locking corner castors so they stay put when you get them where you want them. All units feature a safe, plastic-coated 'J' hook (so no dangerous top hook!), making these units safe for children of all ages.

MOBILE DOUBLE SIDED BENCH 32 HOOKS

1200w x 600d x 1200h

An attractive mobile solution with 32 coat & bag hooks. It has space for shoes to be neatly stored.

PRM30-** Maple £477.00

BAG, SHOE AND COAT STORE 32 HOOKS

1200w x 600d x 1200h

An attractive mobile solution with 32 coat & bag hooks. It has space for shoes to be neatly stored.

PRM29-** Maple £513.00

MOBILE DOUBLE SIDED BENCH 24 HOOKS

maxistor

STORAGE SOLUTIONS

Designed to withstand the rigours of everyday life, the Maxistor range of book storage is perfect for any classroom or learning resource area.

Maxistor features aluminium shelf stiffeners as standard for increased strength, and has a striking modern castor on mobile units, and optional 38mm tops and signage panels. Shelving can be angled or horizontal.

Shelf stiffeners

Modern castor

Optional 38mm top

Some products within the Maxistor range require simple self assembly where specified.

End panels

Each run of shelving is enclosed in 40mm end and top panels, finished in a range of contemporary coloured high pressure laminates.

Fully welded frame

Every bay has a fully welded steel frame and steel rails which ensure strength and durability.

Optional label holder

An optional label holder can be applied to any bay and accepts labels 420mm x 50mm, which can be created on an A3 printer.

Internal panels

All internal panels are 18mm and can be specified to match, contrast or compliment the outer panels.

Dual purpose shelves

Dual purpose shelves can be placed horizontally or angled for display purposes, each shelf has an extruded aluminium shelf stiffener colour matched to the frame and rails.

 This range requires on-site assembly. Please contact us on **01535 683 250** for more details.

Don't forget to include your colour/finish choice when ordering.

Library shelving

This robust and stylish range of modular library shelving is designed to offer flexibility in both configuration and finish.

Create your own system

Simply select from the items and add your choice of finish for outer panels, inner panels and metalwork. Shelving is delivered with every other bay assembled and adjoining bays are flat packed for simple self assembly.

Metal locker system (Items A-F)

Lockers using an all-steel construction offer durable, high quality and secure personal storage. Attention to strength is given in the primary area of doors, door frames and locking systems. All lockers feature ventilation slots and card holders as standard.

Nesting lockers

Lockers are available in nests of 1, 2 or 3, making installation easier and quicker in larger applications. Lockers are pre-drilled for further nesting once in location. Sloping tops are available as an optional extra.

- 1 year warranty

Standard deadlock
Supplied as standard, complete with 2 keys per compartment. Locks have over 2000 variations and can be supplied with a master key or spare keys on request

Pistol grip lock
Can be supplied as alternative to standard deadlock, for use with a padlock at no extra cost (padlock not included)

Coin/token return
Other options such as coin/token return locks are available upon request

Don't forget to include your colour choice when ordering.

Coloured front (Items A-F)

The locker fronts are available in the following 6 colours:

Blue/Burgundy/Red/Green/Yellow/Grey

The steel carcase is Light Grey

Other fabrics available on request. Contact us for more information

We offer a range of pedestals to co-ordinate with our desks. Choose from under desk units or desk high to give a larger work-surface. We also offer a slimline range where space is at a premium.

All under desk pedestals have 18mm MFC tops and desk high have 25mm tops. Available in a choice of finishes with matching 2mm ABS edging to tops and drawer fronts.

Units are lockable as standard, folding key supplied.
Desk high pedestals are height adjustable from 720mm-730mm.

Cantilever, panel end and A-Line desks all have 705mm clearance below for under desk pedestals.
Our Beam bench desking has 655mm clearance so 533(H)mm pedestals should be used under these.

A. 2 drawer mobile under desk pedestal

450(D) x 1600(H)mm
With 3 adjustable shelves

800(W)	VK08-45-160H	£156.25
1000(W)	VK10-45-160H	£169.00

F. Bookcase - 1980mm Height
450(D) x 1980(H)mm
With 4 adjustable shelves

800(W)	VK08-45-198H	£183.00
1000(W)	VK10-45-198H	£197.50

Additional Cupboard/Bookcase Internal Wooden Shelf - 18mm

VSHF08-C-K	18mm shelf, for use in 800mm width Cupboards/Bookcases.	£17.00
VSHF10-C-K	18mm shelf, for use in 1000mm width Tambours/Bookcases.	£18.00

Finish options

Beech/Maple/Oak/Grey/White

Cupboards | Office Storage

Our stylish cupboards are supplied empty so you can choose your own internal accessories. 800mm wide cupboards only accept shelves or select 1000mm wide for a choice of filing accessories (see page 95). Locking as standard, folding key supplied.

A. 2 door cupboard - 720mm Height
450(D) x 720(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-072H	£162.50
1000(W)	VC10-45-072H	£174.50

B. 2 door cupboard - 730mm Height
450(D) x 730(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-073H	£162.50
1000(W)	VC10-45-073H	£174.50

C. 2 door cupboard - 1000mm Height
450(D) x 1000(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-100H	£178.00
1000(W)	VC10-45-100H	£192.00

D. 2 door cupboard - 1200mm Height
450(D) x 1200(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-120H	£204.50
1000(W)	VC10-45-120H	£220.50

E. 2 door cupboard - 1600mm Height
450(D) x 1600(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-160H	£229.00
1000(W)	VC10-45-160H	£248.50

F. 2 door cupboard - 1980mm Height
450(D) x 1980(H)mm
Supplied empty, purchase shelves separately

800(W)	VC08-45-198H	£266.00
1000(W)	VC10-45-198H	£288.50

Cupboard/Bookcase Internal Wooden Shelf - 18mm

VSHF08-C-K	18mm shelf, for use in 800mm width Cupboards.	£17.00
VSHF10-C-K	18mm shelf, for use in 1000mm width Cupboards.	£18.00

Finish options

Beech/Maple/Oak/Grey/White

See page 95 for other internal accessories suitable for 1000(W)mm cupboards.

Our side opening tambours provide practical and stylish office storage. Each unit is supplied empty so you can choose your own internal combination from shelves to filing options.

All units are locking and are supplied with 2 keys.

Volume Tambour Internal Wooden Shelf - 18mm

VSHF10-T	18mm shelf, for use in 1000mm width Tambours only.	£18.00

Pitts Polycolour options (Items H-I)

Red/Slate Grey/Oxford Blue/ Heather/ Grey Mist/Green/Caramel

Pitts Polycolour FR® noticeboards are acoustically absorbent panels with a felt like finish. They are made from 100% PET plastic which depending on the colour, contain up to 90% post-consumer material. Pitts Polycolour FR® are also recyclable in the PET waste stream. They are flame retardant to BS EN 13501.

They can be installed on walls and ceilings in offices and educational facilities.

TRUDY NURSERY

Trudy nursery is a range of furniture for children aged between 0 and 5 yrs. Made from sustainable natural sources, it has no trap-points, rounded corners and an antibacterial coating to help to reduce the risk of upset tummies in the nursery.

HOW TRUDY NURSERY WORKS

SPACE

We know space can be tight in a nursery, that's why the trudy nursery range cleverly adapts to create new layouts.

FINISH

Trudy nursery furniture has a tactile, neutral wood finish which helps children focus without the distractions of too much colour. The range benefits from a 10-year structural warranty and has an anti-bacterial coating to keep germs at bay!

FLEXIBILITY

The key to modern nursery. Units are designed to be easily configurable, then locked into position with the clever nut and bolt locking device.

QUALITY

Every trudy nursery product is made with high quality materials and fittings. Chairs are all ergonomically designed enabling children to learn in safety and comfort.

LAYOUT

A simple change in layout can transform the furniture and take children into a world of rocket ships, shops and anywhere their imagination chooses to take them.

INTERACTION

Children learn by interacting with the furniture, and their environment. The furniture is configurable, giving you loads of options when creating play areas.

SIMPLE LINKING DEVICE

The trudy nursery range uses a simple fixing mechanism, a wooden nut and bolt, to link items together opening up a world of possibilities.

Very easy to set up and take apart, nearly all the products in the range can be linked together using this uncomplicated, but ingenious mechanism.

Trudy nursery furniture supports children in their imaginative play. They are free to turn the furniture into anything they like, and because it is so durable, we know we'll have it for a very long time.

Hannah Wiggin
Handprints Nursery Manager

We always listen to our customers. So, when we wanted feedback on our new trudy nursery range, who better to ask than some very demanding preschoolers?

As you would expect, the trudy testers really put our furniture through its paces and took a very hands-on approach to their task. This was quality control at its toughest.

Needless to say, no play unit was left unexplored, no table or chair unused, and every toy and chalkboard rigorously examined. Everything was thoroughly road-tested and put through its paces.

Cupboards were filled and emptied, whiteboards doodled upon and crawl units were, well, crawled through.

Even the baby change unit was tried out (and approved) whilst the play kitchen and art areas were a hive of activity.

After an exhausting, but enjoyable day, the trudy testers delivered their feedback to our senior designer, before hanging up their lab coats and happily clocking off to enjoy a well-deserved ice cream.

TRUDY NURSERY

Planning your project

We put you at the heart of our design process to deliver a solution that's completely in tune with how you work and learn. Our design and planning team has extensive knowledge of working in the educational market and offers the following:

- Project co-ordination of fixed and loose furniture
- Interior design and space planning
- 3D visualisation/animations
- M&E co-ordination
- Budget management
- Project catalogues (project specific)
- Specifications; material selection, product suitability and finish
- Creation of scheme mood boards

A Typical Project with British Thornton

1. Client Engagement

Our sales and design team work with you to discuss your project requirements, we endeavour to engage with all project stakeholders throughout this process.

2. Order Confirmation

Once you are happy with your project, send through a purchase order and we will prepare for manufacture and delivery. A deposit is required at this stage.

3. Project Management

We will assign a contract manager to your scheme, who will meet with you and your site team to finalise drawing/finishes approval, installation programmes and confirm site dimensions.

4. Technical Design

Signed off drawings are passed to our technical design team who will prepare your scheme for manufacture, this is then sent through to our factory for processing.

5. Manufacturing Process

We typically require 4 weeks to manufacture your scheme, however some items from our suppliers can take longer to obtain. Your contract manager will advise on any changes.

6. Delivery & Installation

Your contract manager will coordinate all deliveries to site from both ourselves or direct from our suppliers, and will ensure a team is on site to complete the installation as per your agreed schedule. Interim payments may be applicable for long projects delivered in phases.

7. Project Completion

All works complete, with sign off by yourself to ensure it matches expectations. Final invoice is payable at this stage.

New classroom visualisation

Working with us

We work with architects, specifiers and interior designers to plan and create your space.

We use Revit to allow us to plan the scheme in 3D for space planning and layout production, we also provide a black and white 3D representation of your space. Coloured versions of the 3D space showing the clients scheme can also be provided on request.

British Thornton has invested in 3D software and training to ensure we are up-to-date with the latest technology required by the BIM (Building Information Modelling) system and our manufacturing processes have been refined to lessen any impact on the environment.

Benefits of BIM

- A smoother design cycle with reduced risk for material and on-site problems
- An integrated supply chain throughout the construction phases
- Better documentation and analysis for sustainable design and building alternatives, usually before construction has even begun
- Value at every stage of the construction process, from initial conception through to project completion
- Intelligent building data, which can be used to manage the building and facilities

Sustainability

- We only use timber that comes from FSC® certified suppliers
- Our factory is heated by a woodburning incinerator using our wood waste and sawdust
- All board material is low or formaldehyde free
- 95% of our materials and products are UK sourced
- Our packaging is re-usable, removed at point of delivery and returned to our factories for us to use again
- We recycle all general waste where possible
- Our wildlife encouragement programme has brought over 54 species to a stretch of the River Worth, West Yorkshire; including Herons Dippers and Kingfishers.

Science Installations

We can provide you with state-of-the-art science labs with all of the latest technologies, so your students will have the best possible resources to support their research.

All of our science labs are specified with chemical resistant Vulcathene waste fittings and dilution traps, while all worktops are made of solid grade laminate that is resistant to moisture, scratches, chemicals and bacteria. We can also supply all of the finishing touches, including water and gas taps, sinks, safety equipment and fume cupboards.

Call us on **01535 683 250** for more information.

Preparation Rooms

Preparation rooms are one of the most important areas within every science block. Required for the safe storage of science equipment, chemicals and preparing experiments.

From fixed cupboards and shelving, to mobile tray trolleys and roller storage with worktop space, sinks and fume cupboards, we can create a preparation room to perfectly suit your needs.

Designed for the safe storage of your equipment and chemicals, we offer a wide range of practical solutions for science preparation rooms.

A wide range of units available for all curriculum areas, available in infant, junior and senior heights.

Manufactured to exacting specifications, this is a superb range offering you an extensive choice of colours and finishes. Access to service voids is facilitated by removable backs to the units and removable panels.

All the units are supplied fully assembled, using glue and dowel construction with adjustable shelves on steel pins. Fully compliant with BS3202 Laboratory Furniture, test certificates for strength and stability to BS5873 (1998) Part 4 Level H as recommended by the DCSF.

Quality is paramount; the doors and drawer fronts are available in a choice of melamine and high pressure laminates. All doors and drawers can be fitted with removable barrel locks to differ or all to pass (*individual to each cupboard or one key to fit all*).

The unit supports the worktop

Moisture resistant plinth

Benefits

1 Sink

1 cast epoxy sink 250mm x 200mm x 150mm deep with optional removable cover, vulcathene waste and bottle trap. 1 Single swan neck water tap. 1 x access panel.

2 Gas and electric supply

Recessed fascia panel for gas, electric and data supply.

3 Ventilation grilles

Low level grilles are fitted for ventilation of the gas services.

4 Removable panels

Removable panels allow access to the base of the pedestal.

5 Curved extrusion

The framework of the pedestal is fabricated from extruded aluminium, powder coated in a colour from our standard range.

6 Optional docking point

Lockable docking point for a mobile filtration fume cupboard includes bayonet connection for gas and water, vulcathene waste connection, 13 amp power outlet.

Due to specific delivery & installation requirements, prices for the Genesis Pedestal System are available on request.

Call us for more information
01535 683 250

Design & Technology Installations

We understand that Design & Technology spaces should allow students to express their creativity, imagination and practical skills.

That's why we design a range of fully equipped food technology, art & design, textiles and resistant material rooms, complete with integrated appliances and the latest technologies.

Call us on **01535 683 250** for more information.

High pressure laminate

Ideal for IT, office or classroom use, due to its durability and cost effectiveness.

- Impact-resistant ABS edges
- Heat resistant
- Scratch and impact resistant
- Can be used in areas where low levels of chemical resistance are required

We would recommend that solid grade laminate or Velstone is specified for areas where sinks have a heavy use or high chemical resistance is required.

Available in a choice of finishes.

Solid grade laminate

Specifically developed for use in science areas. The core of solid grade laminate is black and the surface can be moulded for drainage grooves.

- Chemical resistance - good resistance against low concentration chemicals
- High scratch resistance
- Easily maintained
- Surface moulded - for drainage grooves
- Safe fire behaviour - heat resistant and only ignitable at relatively high temperatures
- Environmental considerations - certified according to ISO 14001

Available in a choice of finishes.

Toplab

Self supporting flat panel with an integrated, decorative urethane-acrylic surface and a cellulose fibre reinforced phenolic core. This durable material is perfect for laboratory worktops.

- High chemical resistance - high resistance against a large number of aggressive chemicals, due to a unique, patented, electron beam curing process
- Non-porous - spills or stains will not be absorbed
- Easy to clean
- Inconspicuous joints
- Surface moulded - for drainage grooves
- Environmental considerations - the manufacturer uses a method for converting softwood from certified forests into an environmentally sound worktop solution

Available in a choice of finishes.

Velstone

Affordable, solid surface, worktop 25mm thick.

- Non-porous - spills or stains will not be absorbed
- Seamless joints - does not allow accumulation of dirt at joints, allowing one continuous surface
- Easy care and maintenance - most stains can be wiped clean. Minor surface damage or scratches can be removed with a scouring pad
- Repairable - accidental damage, in most cases, is repairable by qualified tradesman
- Certificate of merit from Royal Institute of Health and Hygiene
- Fire ratings - BS476 part 6 class 0, BS476 part 7 class 1
- 10 Year limited warranty

Available in a choice of finishes.

Spur shelving

A stylish and flexible range of wall fixed adjustable shelving, suitable for a wide range of areas.

The shelves are manufactured from 18mm quality furniture board, with high-impact ABS edges for durability.

Lengths

Available in 3 lengths; **700mm, 1000mm or 2000mm.**

Depths

Available in 2 depths; **300mm or 640mm.**

Carcase

Constructed from 18mm melamine faced MDF, with matching ABS edges. All units supplied fully assembled, using glue and dowel construction, adjustable shelves on steel pins and removable backs for access to service ducts. Available in a choice of finishes.

Plinth

15mm moisture resistant, black melamine faced MDF, with external seen corners finished in black PVC.

Metalwork

All metal work is finished in an epoxy powder coating and is available in a choice of finishes.

Drawer and door fronts

Option 1:
Standard melamine door and drawer fronts with matching 2mm ABS edges in a choice of finishes.

Option 2:
Optional high pressure laminate door and drawer fronts with grey 2mm ABS edges, in a choice of finishes.

Option 3:
Optional premium high pressure laminate door and drawer fronts with grey 2mm ABS edges, in a choice of finishes.

The thornton handle

High quality steel, matt chrome handles* are supplied as standard (see above). The below handles are available at no extra cost;

Thornton handle/black bow/aluminium 'D'

* Please note all handle colours need to contrast with door or drawer front finish for ease of visibility.

Trudy handle

A unique, safe curved handle for use in infant and junior schools, co-ordinating with our Trudy range. Manufactured from zinc alloy and finished in an epoxy powder coating. Available in a choice of colours.

* Please note all handle colours need to contrast with door or drawer front finish for ease of visibility.

Trays

Gratnells trays are reinforced polypropylene trays. Weight capacity 5kg in each tray.

Blue/Cool Blue/Purple/Red/Orange/Pink/Yellow/Green/Lime/Grey

Door and drawer locks

The chrome nozzle lock features a removable barrel and are available on request; to be suited as required, and mastered. The removable barrel allows the lock to be changed simply and easily, if the keys are lost or a change of lock is required.

Drawer runners

Drawers are steel, epoxy coated. Drawer slides on roller runners with a 15mm laminate faced base and rear upstand. A very smooth and robust drawer system.

Safe hard wearing hinges

Unique to British Thornton; our hinge is designed specifically to meet the demands of the educational furniture market. Trap points have been eliminated whilst improving the overall strength of the hinge.

The exposed, knuckle hinges, with integral closure, give a full 230° opening; vastly improving the durability and longevity of the door. Crucifix plates on the carcass give much greater hold.

Scarborough UTC

- Design full 3D rendering of the building's interior.
- Complete loose and fixed furniture solution to the entire school (7,459 pieces in total).
- Innovative products to meet special technical requirements.
- Classroom and lab design that places the teacher in the centre of the room with students around them.

"At all stages during the process British Thornton have been supportive and have accommodated all of our requests however non-standard they may be!"
Tim Englefield, Principle

Prudhoe Community High School – Learning Resource Centre

- Complete loose and fixed furniture installation.
- Installation of tables, chairs, bookshelves, soft seating and the library reception.
- Colourful mix of white, lime and oak-coloured fixtures to create a calming environment.
- Flexible solutions to create temporary classroom or presentation areas.

Clyde Valley Campus

- £27 million state-of-the-art building constructed on the school's former sports fields.
- A through school with primary and secondary campuses on the one site with a total pupil count of 942.
- British Thornton manufactured and installed the complete package of fixed and loose furniture for all areas throughout the school.

Harris Academy, Dundee

- A new £30M modern learning environment providing accommodation for 1200 pupils with an enhanced provision for pupils with special education needs.
- British Thornton worked closely with the project team throughout, ensuring design, specification and co-ordination of all furniture and equipment fulfilled the vision of the client and architect.
- Working in partnership with the main contractor British Thornton delivered the complete FF&E package for the fantastic new school.

The delivery date given on a confirmation order is an estimated date and not an actual delivery date, we will endeavour to deliver the week of the stated delivery date.

If you would like to know the progress of your delivery please contact our sales support team.

SATISFACTION GUARANTEE

The modern teaching environment places heavy demands on furniture and fittings, so we build quality and durability into everything we produce.

Proof of our commitment to the highest standards is our 5 year warranty on all items unless specified otherwise in the product description. This guarantee is against defective materials and workmanship for 5 years after purchase.

All our warranties are subject to fair wear and tear.

RETURNS POLICY

All our products are made to order. We do not supply on a sale or return basis and do not normally accept returns other than warranty returns.

All goods must be signed for and checked at the time of delivery and any damage found must be reported within 2 working days.

Products that have been fitted or installed cannot be returned.

If you wish to return a faulty product you must contact our customer support team on 01535 683 250 for authorisation.

Any returns sent to us without prior authorisation will not be accepted.

Where we agree to a return of a standard catalogue products (excluding upholstered seating which cannot be returned) a restocking and administration fee will be applicable.

SUPPLIED FULLY ASSEMBLED

Most of our products are supplied and delivered fully assembled, but products marked with the self assembly logo will be supplied for simple self-assembly.

Assembly does not require any specialist tools.

If you require our installation service, please contact us on 01535 683 250 for further details.
